Meet Geo Whisperer Beta. (<https://t.co/tg0a8Ytb5V>). It shows the history of a place — in pictures, in words, and in a short film built from what's changed. Just type in an address and it will tell you what the differences are in satellite images over time. (1/6) <https://t.co/xiialL9wfO>

No discrepancies detected across the available sources.

This is a private capture made by XWhisperer on the operator's own machine. It is a record of what the listed public endpoints returned at the capture time above. It is not a third-party attestation. Its evidential value rests on the raw source responses saved alongside it and the SHA-256 hashes recorded in manifest.json. X can close or change the syndication endpoint at any time.
