SizweLo

@SizweLo

Bill Gates is launching implantable chips which will be used to show whether a person has been tested and vaccinated for Corona. These microchips will dissolve under the skin, leaving identification 'quantum dots'. These implants and can also be used as a form of ID. <https://t.co/5VibJITyN1>

This is a private capture made by XWhisperer on the operator's own machine. It is a record of what the listed public endpoints returned at the capture time above. It is not a third-party attestation. Its evidential value rests on the raw source responses saved alongside it and the SHA-256 hashes recorded in manifest.json. X can close or change the syndication endpoint at any time.
